

FREEPOINT COMMODITIES LLC
APPROVED RIN GENERATORS
Update: October 10, 2017

In accordance with a Spot Purchase Agreement and the General Terms & Conditions attached thereto, including specifically the Addendum for the Sale of Renewable Identification Numbers (“RINs”), and unless otherwise agreed to in writing, RINs to be purchased by Freepoint Commodities LLC must originate from sources listed below.

- QAP RINs.** All RINs verified under EPA’s Quality Assurance Program (“QAP”), as evidenced by being QAP “Type 10” in EMTS, are approved for purchase; **provided however that Freepoint Commodities LLC reserves the right to reject QAP verified RINs for good cause.**
- Domestic RIN Generators.** For transfers of RINs that have been separated pursuant to the RFS regulation (“K2” RINs), without a concurrent sale of renewable fuel, RINs generated by domestic producers from the following list are approved.

“Contracts for the purchase and sale of Renewable Identification Numbers (RINs) contain provisions regarding indemnities and warranties that express the agreement of the parties concerning claims arising out of the sale of RINs. Inclusion of a RIN Producer within this “Approved RIN Generators” document does not imply that all RINs generated by the Producer are valid, nor does it release the Seller from the indemnity and warranty provisions in the contract.”

Please note that the most certain way to ensure RINs will be accepted is to provide QAP certification.
